

"Thanks to deskMate, the administrative and licensing costs of our training IT be lowered significantly. At the same time, we are much more flexible and can react faster to changes. "

deskMate
POWERED BY KIVITO

Cloud WorkSpaces made simple

Trainings more flexible and innovative - with Kivito deskMate

Our customer, who has been working since 2007, is a leading training company certified as an educational institution according to DIN EN ISO 9001: 2015. Distributed training courses, extra-occupational seminars, open seminars and individual company seminars are offered in 15 locations throughout the Federal Republic of Germany. The high-quality continuing education offer offers qualification in demanding IT topics with manufacturer certifications, commercial topics, PC applications as well as automotive special applications.

IT software training:

The demands on continuing education companies are steadily increasing. In addition to more complex training content, customers want more flexibility in terms of both the number of participants, the training location, and training times. Wishes such as the first training block this week and the second week after next in the other location with seamless continuation of the SW stand are not yet the rule, but more and more often asked.

Providing the training hardware and software, as well as managing it, is becoming increasingly complex and time consuming.

CHALLENGES

- Administration and administration of training IT is very time-consuming and time consuming. Until now, the training department was not able to do this on its own
- The flexible use of licenses was not possible because they have to be kept at each location.
- Training blocks regardless of the time interval should be seamlessly continued in software.
- Remote training was very cumbersome or not possible due to non-browser based software.
- Participants have repeatedly and unauthorizedly downloaded training documents and programs.

SOLUTION

- "Install" all training desktops in the deskMate data center.
- Accessibility of course participants via HTML5 browser from any location or even from home.
- The various pre-installed images are rolled out within minutes, depending on the content of the training.
- deskMate desktops can be "frozen" and seamlessly continued anywhere, anytime.
- Monthly billed service from a German, highly secure data center with monthly notice periods.

ADVANTAGES

- Different applications and operating systems can be trained on any physical training desktop.
- Conveniently easy centralized management and fast roll out and freezing of images.
- Extend the "lifespan" of physical training desktops by 3 to 5 years.
- Reduction of license costs. deskMate desktops available and chargeable monthly. Very flexible training environment.
- Individual company seminars for the first time, possible for larger customers on their own training environment. In the meantime, remote training courses are also offered at home with participants.

About deskMate:

deskMate is a trademark of Kivito GmbH.

deskMate is based on the trueDaaS technology, a cloud generation software developed in Germany of the newest generation. The technology enables the use of any software - independent of the underlying operating system - on a virtual desktop. With deskMate, the company also offers desktop-as-a-service (DaaS) "made in Germany" for small and medium-sized companies. The processing of the data takes place exclusively in German data centers with the highest security standards.

In 2014, the trueDaaS technology was recognized by the Experton Group as a rising star in the cloud desktop sector. In September 2016, deskMate was confirmed by Forrester Research as one of the world's leading cloud workspace technologies.
