1.2.4 If the customer also uses General Terms and Conditions, the contract is concluded without express agreement on the inclusion of the General Terms and Conditions. As far as the different general terms and conditions agree, they are considered agreed. The contradictory individual regulations are replaced by the regulations of dispositive law. The same applies in the event that the terms and conditions of the customer include provisions that are not included in these terms and conditions. If these terms and conditions contain provisions that are not contained in the terms and conditions of the customer, then these terms and conditions shall apply.

1.4.3 Unless otherwise agreed, the fee will be charged at cost to the prices of the Kivito, which are generally valid at the time of provision of the service. As far as a price list is available, this must be applied. Billing according to expenditure takes place on presentation of the usual activity certificates at Kivito. The customer may object to the stipulations made there within two weeks in writing. After the expiry of these two weeks without objections from the customer, the proof of activity shall be deemed accepted.

1.4.4 14 days after invoicing, the customer is in default of payment. In the event of late payment, Kivito is entitled to issue a reminder with a reminder fee. 1.4.7 All online bookable services are payable in advance via automated payment systems as a recurring subscription. The payment period depends on the subscription you have chosen.

1.5 Performance dates, delay

1.5.1 Fixed service dates must be expressly agreed in a documented form. The agreement of a fixed service date is subject to the proviso that Kivito receives the services of its respective subcontractors and subcontractors on time and in accordance with the contract.

1.5.2 If a cause for which Kivito is not responsible, including a strike or lockout, adversely affects the adherence to schedule ("disruption"), the deadlines shall be postponed for the duration of the incident, including, if necessary, a reasonable restart period. A party shall inform the other party promptly and timely of the cause of a disruption occurring in its area and the duration of the delay.

1.5.3 If the effort increases due to a disruption, Kivito can also demand the reimbursement of the additional expenses.

1.5.4 If the customer can withdraw from the contract due to improper performance of Kivito and / or demand compensation instead of the performance, the customer will, at the request of Kivito within a reasonable period set out in writing, whether he asserts these rights or continues to wish the service , In the case of a resignation the customer has to reimburse the Kivito the value of previously existing possibilities of use; The same applies to deterioration due to intended use.

If the Customer is entitled to compensation for damages or reimbursement of expenses for the delay, he is entitled to charge 0.5% of the price of the part of the service for each completed week of delay, which can not be used due to the delay , but in total not more than 5% of this price.

1.6 Ranking, exchange ratio

1.6.1 In the interpretation of the contract, the following regulations apply in the order named:

- I. The regulations of the contract,
- II. The terms of reference in the special performance forms attached to the contract,
- III. the offer
- IV. these terms of contract
- V. the regulations of the BGB and HGB,
- VI. further legal regulations.

1.6.2 Concrete descriptions of general tasks restrict the performance obligation to the respective negotiated concrete specification. The first-mentioned provisions always take precedence over the latter in the case of contradictions. Gaps are filled in by the respective subordinate provisions. For arrangements in chronological order, the younger has priority over the older one.

1.6.3 Services are exchanged with this contract. A corporate law connection between the parties is not justified by this.

1.7 Co-operation obligations of the customer

1.7.1 The customer is obliged to support Kivito and in his operating environment all conditions necessary for the proper execution of the order, e.g. to create the required operating and operating conditions. In particular, he will provide necessary information and, if necessary, enable remote access to the customer system. The customer also ensures that expert personnel are available to support Kivito. Insofar as special security requirements apply to the operation of the customer, the customer shall inform Kivito of these before the conclusion of the contract. The required operating and operating conditions result from the contract.

1.7.2 Insofar as it is agreed in the contract that services can be rendered on site at the customer's premises, the customer provides sufficient jobs at the request of Kivito free of charge.

1.7.3 The customer is responsible for the proper data backup, insofar as corresponding services of Kivito can not be provided in accordance with the contractual agreements. Proper data protection includes all technical and / or organizational measures to ensure the availability, integrity and consistency of IT systems, including data, programs and procedures stored on those IT systems and used for processing purposes. Proper data protection means that the measures taken, depending on the data-sensitivity, allow an immediate or short-term restoration of the state of systems, data, programs or procedures after a perceived impairment of availability, integrity or consistency due to an adverse event; The measures include at least the production and testing of the ability to reconstruct copies of the standard software, data and procedures in defined cycles and generations.

1.7.4 Unless otherwise agreed, the customer shall additionally keep all documents, information and data handed over to him, in such a way that they can be reconstructed in the event of damage or loss of data carriers.

1.7.5 The customer acknowledges that created software together with the operating instructions and other documents - also in future versions - are protected by copyright.

1.7.6 Kivito may require additional compensation for your expenses, to the extent that

- I. it acts on the basis of a report without a defect, unless the customer was able to recognize with reasonable effort that there was no defect, or
- II. a reported incident is not reproducible or otherwise demonstrable by the customer as a defect.

1.7.7 The customer informs Kivito of any changes in the employees and users of the services to be provided by Kivito, insofar as these are of importance for the provision of services. The additional costs resulting from changes will be borne by the customer.

1.7.8 The Customer, in its sphere of control, ensures that the storage and use of data by Kivito on its behalf - e.g. private data of his employees in the context of the use of e-mails - complies with the applicable legal requirements. At the request of Kivito, proof must be provided without delay. If such proof can not be provided, Kivito may refuse the corresponding service. In this case, the payment obligations of the customer remain.

1.7.9 The customer is responsible for proper license management. As far as software is provided by Kivito, a licensing on the customer can take place. If Kivito has paid the remuneration for the software licensed to the customer, the software shall be issued and / or transferred to Kivito upon termination of the relevant service certificate or the entire contract. The customer will make all necessary declarations and perform actions that enable the publication and / or transfer and further use of the software by Kivito.

1.7.10 If the customer runs Microsoft Windows operating systems or Microsoft applications on the systems provided by Kivito, these must be obtained from Kivito, unless otherwise agreed in writing. The customer has to inform Kivito in writing before installing or running Microsoft Windows operating systems or Microsoft applications on systems provided by Kivito. Kivito reserves the right to prohibit the installation or operation of these operating systems and applications on the systems provided to the customer if this is in contradiction to the Microsoft license terms valid at that time. If the customer runs Microsoft operating systems or Microsoft applications on the systems provided by Kivito which were not purchased from Kivito and were not registered with Kivito before installation or operation, or whose operation was prohibited by Kivito, Kivito reserves the right to terminate the contract without notice.

For claims for damages asserted by third parties against Kivito due to operating systems or applications incorrectly licensed by the client, the client shall indemnify Kivito, including the costs of the necessary legal defence.

If the client obtains Microsoft operating systems or Microsoft applications from Kivito, the Microsoft "END USER LICENCE TERMS" in their current form, which are attached in Appendix A, are also part of the contract concluded with Kivito.

1.7.11 Changes to the services of Kivito or to the IT infrastructure operated by Kivito by the customer are only permitted after prior agreement of the parties. Unless agreed changes lead to additional expenses for the Kivito, these shall be remunerated by the customer in accordance with the price list valid at the time the service is provided.

1.7.12 If third parties commissioned by the customer use Kivito to make untimely changes to Kivito's services or to the IT infrastructure operated by Kivito, Kivito shall not be responsible for downtime, disruptions and damages, and the customer bears the additional expenses incurred by Kivito.

1.7.13 The customer shall ensure that no data theft takes place in its organizational area on shared systems operated by Kivito.

1.8.1 The customer may assign rights under the contract to third parties only with the prior consent of Kivito.

1.8.2 Kivito is entitled to transfer to third parties all obligations and rights to which it is entitled under the contracts. Kivito will ensure that the customer does not suffer any disadvantages.

1.8.3 Kivito is further entitled to have all duties performed by third parties on behalf of the order. In this case, Kivito continues to ensure as the contracting party the proper fulfillment of its contractual obligations towards the customer, and the customer accepts the service rendered as Kivito's service.

1.9 Confidentiality, custody, control rights

1.9.1 Both parties strictly agree to keep each other's know-how and trade secrets, which they learn about each other during the execution of this contract, and to keep all know-how, which is not generally known, secret from third parties and to oblige their employees accordingly.

1.9.2 The parties are aware that electronic and unencrypted communication (eg by e-mail) is subject to security risks. In this type of communication, they will therefore not assert any claims based on the absence of encryption, except where encryption has been previously agreed.

1.12.3 In the case of other liability claims, Kivito shall be liable without limitation only in the absence of the guaranteed quality as well as for intent and gross negligence of its legal representatives and executive employees. For the fault of other vicarious agents, Kivito is liable only to the extent of liability for slight negligence according to Number 1.12.4.

1.12.4 For slight negligence, Kivito shall only be liable if a duty is violated whose observance is of particular importance for the achievement of the purpose of the contract (cardinal duty). In case of violation of the cardinal obligation the liability for all damage cases is limited to 100.000,00 EUR. This also applies to lost profits and lost savings. Further liability for negligence as well as for other, consequential damages is excluded.
